

JAYANTH SAI CHIKKALA

Java Full Stack Developer

+91 9010253076 | jayanthyeswanth9@gmail.com | Andhra Pradesh, India

Portfolio: jayanthaichikkala.netlify.app | GitHub: github.com/jayanth0227 | LinkedIn: linkedin.com/in/jayanth-sai-chikkala

PROFESSIONAL SUMMARY

Java Full Stack Developer with 1 year of experience developing enterprise web applications using Java, Spring Boot, REST APIs, MySQL, JavaScript, HTML, and CSS. Experienced in building SaaS platforms, workflow automation systems, responsive user interfaces, and scalable backend services.

Strong understanding of OOP, Microservices, SDLC, Agile methodologies, API integration, database optimization, and deployment workflows. Passionate about solving real-world problems through clean, maintainable, and high-performance software solutions.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Backend: Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, Microservices, MVC Architecture, JWT Authentication, Authentication & Authorization

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design, DOM Manipulation, Cross-Browser Compatibility, UI Component Development

Databases: MySQL, Oracle SQL, Database Query Optimization

DevOps & Tools: Git & GitHub, Jenkins, AWS (EC2 Basics), Maven, Postman, Swagger/OpenAPI, Docker (Basics), Eclipse IDE, VS Code, XAMPP

Core Concepts: OOP, Data Structures & Algorithms, API Integration, Database Management, Agile/Scrum, SDLC, Performance Optimization, Version Control

UI/UX: Figma, Wireframing, Prototyping, User Flows, Sitemap Design, Responsive UI Design, UX Research Basics

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Jul 2025 – Present

Speshway Solutions Pvt. Ltd. | Hyderabad, India

- Developed and maintained enterprise-level Java Full Stack applications using Java, Spring Boot, JavaScript, HTML, CSS, REST APIs, and MySQL.
- Contributed to the development of a Smart Office Management System that streamlined internal workflow processes and improved operational efficiency.
- Worked on a Multi-Tenant SaaS-based CRM platform with role-based access, tenant-specific configurations, and scalable backend architecture.
- Designed and integrated RESTful APIs for seamless frontend-backend communication and third-party integrations.
- Implemented authentication and authorization using Spring Security and JWT-based security mechanisms.
- Developed data access layer using Spring Data JPA and Hibernate for efficient database operations.
- Collaborated with cross-functional teams in Agile sprints to deliver production-ready features on schedule.
- Improved application responsiveness and optimized database queries, reducing page load and API response times.
- Used Git and GitHub for version control, code collaboration, and branch management.
- Participated in deployment and CI/CD support activities using Jenkins and cloud deployment workflows.
- Contributed to debugging, issue resolution, performance tuning, and application enhancement tasks.

- Built responsive full stack applications using Java, Spring Boot, HTML, CSS, JavaScript, and MySQL.
- Worked on backend integration, REST API development, and frontend UI implementation.
- Strengthened understanding of full stack architecture, debugging, and clean coding practices.

PROJECTS

Smart Office Management System

Java | Spring Boot | Spring Security | JWT | JPA | Hibernate | REST APIs | MySQL | Bootstrap | Git

- Developed modules for employee management, workspace allocation, attendance tracking, and internal workflow monitoring.
- Implemented responsive UI screens and backend functionalities for secure and efficient office operations.
- Integrated REST APIs and optimized database queries for improved performance and smooth user experience.

Multi-Tenant SaaS CRM Platform

Java | Spring Boot | Spring Security | JWT | JPA | Hibernate | REST APIs | MySQL | Bootstrap | Git

- Contributed to the development of a scalable SaaS-based CRM application supporting multiple tenants.
- Worked on tenant-specific configurations, authentication workflows, and customer management modules.
- Developed backend APIs and integrated frontend components for seamless data management.
- Participated in debugging, feature enhancement, and deployment support activities.

Secure Government Research Content Sharing via AES Encrypted QR Code

Django | AES Encryption | QR Code Integration

- Developed a secure document-sharing platform with encrypted QR-based access control.
- Implemented AES encryption for secure handling of sensitive government research documents.
- Improved secure data sharing and restricted unauthorized access effectively.
- Enhanced practical understanding of frontend development and user experience design.

EDUCATION

Bachelor of Engineering – Computer Science & Engineering

2022 – 2025

Eluru College of Engineering & Technology, Andhra Pradesh

Core Subjects: Java, Operating Systems, Data Structures & Algorithms, DBMS | Among the Top 10% of the Batch

Diploma in Mechanical Engineering

2018 – 2021

SASI Polytechnic, Andhra Pradesh

CERTIFICATIONS & ACHIEVEMENTS

- Certified Java Full Stack Developer – Pentagon Space Pvt. Ltd.
- Contributed to enterprise-level Smart Office and SaaS CRM application development.
- Successfully delivered responsive full stack modules in Agile development environments.
- Strong expertise in Java Full Stack Development, Spring Security, JWT Authentication, JPA/Hibernate, REST API integration, Git workflows, and deployment support.

ADDITIONAL INFORMATION

Soft Skills: Problem Solving | Team Collaboration | Communication | Time Management | Leadership | Critical Thinking

Languages: Telugu | English | Hindi | Tamil

Interests: Full Stack Development | UI/UX Design | Cinematography & Photography | Traveling | Emerging Technologies
